Exclusive offer for EDP Comercial residential customers

Discounts on energy supplies (green electricity or green electricity and natural gas), special conditions on Funciona services and the EDP Saúde Plan and access to a range of exclusive advantages. Available for energy supply on flat rate and two-rate time-of-day tariffs for contracted powers from 3.45 to 20.7 kVA. Available in natural gas supply classes 1 to 4. Discounts on energy supplies apply to the total value of the bill (contracted power and energy consumed in electricity, fixed term and energy consumed in natural gas) and are calculated based on EDP Comercial's reference price, excluding fees and taxes.

Discounts on energy require direct debit and electronic invoicing and will be changed if the customer decides to use another payment or billing method. The monthly fee for the Pack EDP requires that you have or simultaneously sign an energy supply contract with EDP Comercial (electricity or electricity and natural gas). The monthly fee is added to the energy bill. Joining Packs EDP requires a 12-month contract, not applicable to the energy supply contract.

The partner advantages associated with Packs EDP may be freely changed by EDP Comercial during your contract. Keep up to date with them at edp.pt.

All customer data collected by EDP is processed in an absolutely confidential manner and we do not share it with third parties for commercial purposes.

It is the customer's responsibility to share personal data with the partner to benefit from the advantages associated with Packs EDP.

This does not replace the consultation of the conditions of the energy supply contracts and/or the contracts for the additional services associated with Packs EDP.
